

PERFORMANCE EXHAUST PARTS CATALOGUE

- stainless steel tailpipes
- universal back boxes

iepower, proudly presents its new catalogue with more than 200 types of stainless steel tailpipes and universal back boxes.

Plenty to choose from our stunning look tailpipes, you can adapt to your choice most of the models shown, either by fixing the tailpipe to yours existing tailpipe or by welding it.

Also for better power performance and sound you can switch to our several universal backboxes.

Remember that we are manufacturers and if you don't see the item that you are looking for, we still have the possibility to manufacture and develop new models, using our own Maha dyno test bench.

For other exhaust products see us at www.iepower.eu for performance manifolds, full systems, cat-back systems sport catalytic converters and racing exhausts.
